# Fresh and Clean

**Bardahl Fresh and Clean** is a spray which has been developed especially for refreshing the interior of all vehicles cars, with and without air-conditioner. Moreover this product ensures that unpleasant odors, which are produced by the air conditioning, are removed. Within a short time, and in a very simple manner, the car smells fresh and clean.

### Applications

**Bardahl Fresh and Clean** can be used to re-fresh and clean the interior, because the smell is not fresh anymore. Moreover also unpleasant scents of dogs and tobacco can be removed by means of these cleaner.

For selling of used cars: let your used car smell fresh and clean and sell with Bardahl Fresh and Clean.

### Instructions for use

The product works best on room temperature. Put the chair and the back of the chair in front position. Start the engine and put the recirculation system on full capacity. Place the aerosol behind the chair, activate the spray and close the door. When the aerosol is empty, leave the engine on for several minutes for best result. Let then the car ventilate for 5-10 minutes.
