BIO Remover G1900

(Special Cleaner for Glue and Graffiti)

Bardahl Bio Remover G1900 is a blend of vegetable emulsifiers of the turpentine type, surfactants and sequestering agents. Suitable for universal cleaning of heavy contaminations. Excellent for the removal of glue and graffiti from floors or walls. It has a smell of fresh citrus.

Application

Bardahl Bio Remover G1900 is a heavy duty cleaner, water based dilutable and designed for degreasing and cleaning of the heavy jobs. Depending on local cleaning applications we herewith give you the general application for **Bardahl Bio Remover G1900** which is an universal heavy duty cleaner also for cleaning of oil residue applications.

Carbonaceous residues, crude oil, asphalt, tar-like deposits, oil and grease and is applied for cleaning of: storage tanks, tank walls, tank wagons and trailers, heat exchangers, pipelines, floors, etc.

The product emulsion stays stable, does not emulsify for use with water/oil separators.

Application

Immersion baths
Circulating
Steam cleaning
High-pressure cleaning
Hand or low-pressure spray

Rinsing

Pure till 1:1
Pure till 1:1
1:20 till 1:50
1:50 till 1:100
Pure till 1:1

The selected temperature of the water diluted solution for rinsing, which may range till 60°C., depends on the nature and thickness of the glue or grime. Because of the great variation of contamination the trial and error tests has to be done on small test scale surface to determine the final application.

Working-time

Depending of type and thickness of the contamination, general cleaning time 10 to 60 minutes. For the disposal of carbonaceous residues time can be 10 till 20 hrs. Time of circulating or putting in full solution and right temperature has to be tested on test scale sample test.

The higher the dripping point of the oil or grease deposit to be removed, the higher the temperature at which the flush concentrate should be used. This will considerably increase its cleaning power. After cleaning rinsing with water.
