

## Product information

# Turbo-Wash Concentrate 1:100

**Bardahl Turbo-Wash Concentrate** is a real breakthrough for today's auto-windshield washer systems. Used in a mixture 1:100 it ensures clear visibility. It will immediately eliminates dirty films that causes reflective glare.

### The problem

A streaky, filmy windshield is a nasty reality for car- and truck drivers. Seeing through the sharply slanted glass of modern, aero-dynamic cars can be next to impossible with glare from oncoming cars' headlights.

A standard windshield washer fluid or a winter-windshield cleaner and antifreeze just can't cut through the mess of oily film, dirt and insect smear.

### The working

**Bardahl Turbo-Wash Concentrate** is a super concentrated, highly powerful detergent that puts an end to dangerous visibility problem of car-windshields. A small amount in the washer reservoir is enough to make driving enjoyable, even at the worst weather conditions.

**Bardahl Turbo-Wash Concentrate** will protect the wiper blades and will not harm rubber and paintwork.

### The package

The bottle used to package this product is new and different. The bottle itself contains 250 ml. product, enough for 25 liters of water. The top is a measure cup of 25ml. this will treat max 2.5 liters of water. Only squeeze the bottom and the top reservoir fills. Pour the contents of the reservoir in the water reservoir of the car, the rest of the product will stay in the lower compartment.

Mixing order:

1. Water
2. If necessary antifreeze
3. Bardahl Turbo-Wash Concentrate.

In winter we advise to add Bardahl Antifrost to the water/ wash-mixture in the windshield washer reservoir.

### Technische gegevens
