

Floor Cleaner BIO

Bardahl Floor Cleaner is a biodegradable, non-flammable, powerful cleaner composed of high-quality alkaline solvents and surfactants.

Bardahl Floor Cleaner can easily be sprayed in the desired concentration on the parts to be cleaned and only in case of strong dirt a brush or brush is needed. This highly concentrated cleaner dissolves oil, grease, soot, tar stains and dried anti-rust agents very quickly and effortlessly. It can be used on metal, plastic or lacquered surfaces.

Scopes

Bardahl Floor Cleaner is also extremely suitable for cleaning all kinds of parts, tools and tools. It cleans boats, motorcycles, caravans but also agricultural implements, road construction machinery and construction machinery.

Manual

Dilution 1:1 (In liters)

For cleaning oil and grease from floors. Sprinkle the damp floor with cleaner and distribute with a scrubber. The cleaner should be given a few minutes to penetrate the dirt layer. This dissolves this layer and makes it soft. After a soaking time of 5-15 minutes, preferably with warm water and a high-pressure cleaner, the treated part can be sprayed off. **Bardahl Floor Cleaner** can be used either pure or pre-mixed with water.

When cleaning aluminium

When cleaning aluminum, it must first be determined what kind of contamination it is and how the aluminum is finished. Anodized aluminum is very sensitive to acids and alkalis and should therefore be treated with care.

Bardahl Floor Cleaner can be diluted with 2 to 3 parts of water and remain on the surface for 2 to 5 minutes before rinsing.

Care must be taken not to dry up the surface. The exposure time must also be shortened when cleaning with hot water. When in doubt, it is advisable to first do a test on an inconspicuous spot of the part to be cleaned.

When mechanical aids such as rotating brushes are used, the dilution of the **Bardahl Floor Cleaner** must be significantly increased to up to 50 parts of water. Always rinse well afterwards to prevent staining.

Properties

- Biodegradable
- Non-flammable
- pH value 12.8
- Contains Sodium Hydroxide

Biodegradable

Bardahl Floor Cleaner is biodegradable. The biodegradability, measured according to the CEC L-33-T-82 test, is 90%.
