

## EP-2 Lithium Grease

**Bardahl EP-2 Lithium Grease** is lithium soap with enriched with mineral oil and additive package consisting of extreme pressure additives for all types of bearings and mechanisms that work under heavy loads and high temperatures.

### Advantages

---

- Very good resistance to high loads
- Waterproof
- High sealing capacity
- Good resistance to moisture
- Good anti-rust properties

### Analysis data

Test	Results
Colour	Bruin
Soap type	Lithium
NLGI	2
Worked Penetration at 25 °C	265 - 295
Drop point kg	> 180
Welding load kg	> 400
Oxidation stability at 100 °C bar	< - 1,5
Corrosion EMCOR grade	0
Copper corrosion 24h / 100 °C Max.	1b
Water washout at 80 °C %	2,5
Temperature range °C	- 20°C to 120°C
