

Classic Gear Oil SAE 90 GL3

Bardahl Classic Gear Oil SAE 90 is a 100% mineral single grade gearboxoil & cardan oil. The classic-tuned viscosity ensures a constant lubrication film under extreme loads.

Bardahl Classic Gear Oil SAE 90 has a minimum of additive ring and is therefore fully compatible with bronze copper brass and non-ferrous metals. It is suitable for sealing materials from that time (paper, cork, felt and fabric). The excellent adhesion contributes to minimal wear after long standstills.

Application

Suitable for gearboxes and heavier loaded crown and pinion wheels from classics that require a single grade gearbox oil. Contains a friction reducer.
