

Classic Motor Oil SAE 40

Bardahl Classic Motor Oil SAE 40 is a 100% mineral single grade engine oil, developed for the lubrication of gasoline engines from 1900 to 1950.

Bardahl Classic Motor Oil SAE 40 has a minimum additive ring and is therefore fully compatible with bronze copper brass and non-ferrous metals. The viscosity tailored to classics ensures a constant oil pressure, which reduces oil consumption to a minimum.

It is suitable for sealing materials of that time (paper, felt and dust). The excellent adhesion contributes to minimal wear and tear on the engine when starting, even after a long standstill.

Application

Suitable for vintage cars from 1900 to 1950.

-Zn level- 425ppm
