Bardahl Racing Oil Booster

Ref. 13103

12x300 ml

USE

Bardahl Racing Oil Booster contains a unique formula made from FULLERENE molecules, which protects all metal turbo and engine parts and covers them with an unbreakable, friction- and pressure-resistant film.

PROPERTIES

Bardahl Racing Oil Booster:

- ✓ Lubricates and protects turbo and engine during cold start and driving in extreme conditions.
- ✓ Lubricates and protects turbo and engine when the oil level is too low.
- ✓ Protects turbo and engine from oil oxidation.
- ✓ Thickens the oil film at high temperatures without altering the oil quality and viscosity.
- ✓ The main problem with racing engines is friction, this additive will reduce the friction inside the engine by up to 70% (depending on the engine tolerances).

INSTRUCTIONS FOR USE

- Add the product to the warm engine oil.
- 300 ml treats 6 litres of engine oil.
- Can be used with any engine oil.
- This additive is free of graphite, PTFE, chlorinated paraffin, ceramic.

PHYSICAL&CHEMICAL PROPERTIES

Physical condition	Vloeistof
Color	Kleurloos
Flash point	> 60 °C
Thickness	0,801 g/m ³
Viscosity, kinematic	< 20,5 mm ² /s (40 °C)
