# Bardahl Racing Manual Gearbox Additive

Ref. 13105

12x150 ml

## USE

Bardahl Racing Manual Gearbox Additive is an advanced gearbox oil additive, specifically designed to extend the life of manual transmissions. It improves operational efficiency and optimizes gearbox performance parameters. In addition, this additive facilitates a smoother and more precise switching process by reducing friction and wear between the moving components within the transmission unit.

## PROPERTIES

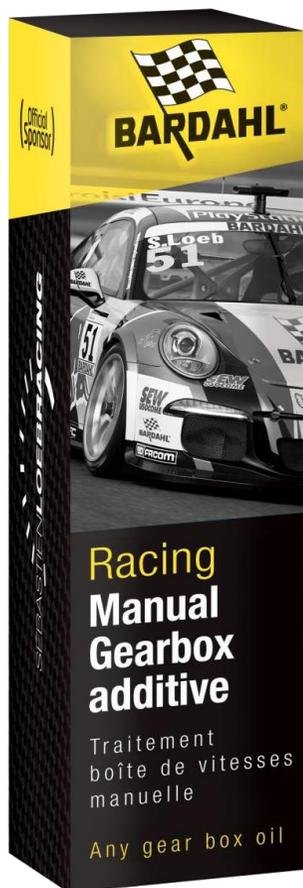

- Bardahl Racing Manual Gearbox Additive:
- ✓ Reduces wear on synchronous rings
  - ✓ Increases the performance of the gearbox by reducing friction on rotating parts.
  - ✓ Lowers the operating temperature
  - ✓ Reduces oxidation and protects against corrosion
  - ✓ Makes shifting smoother thanks to its lubricating properties
  - ✓ Reduces acoustic emissions from the transmission
  - ✓ Protects the gearbox during sprint and competitive races

## INSTRUCTIONS BEFORE USE

- Add the product to the hot gearbox.
- Up to 10% to 20% the oil pan capacity, respecting the recommended oil level.
- Can be mixed with any type of mineral, semi-synthetic, fully synthetic and Dexron oils.

## PHYSICAL & CHEMICAL PROPERTIES

Physical condition	Liquid
Color	Yellow
Flash punt	> 61 °C
Relative thickness	0,88 - 0,9
Viscosity, kinematic	> 20 mm <sup>2</sup> /sec
